

TAYUY SINGCHAI

51 M.11 DOM SANGKHA SURIN 32150

INTRODUCTION

I am a recent Computer Engineering graduate eager to grow my skills as a Fullstack or Frontend Developer. I am dedicated, responsible, and constantly learning new technologies. My expertise lies in developing web applications using frameworks like React and Next.js, focusing on building efficient, user-friendly interfaces.

EDUCATION

Bechalor of Engineer in Computer Engineering

2024

Mae Fah Luang University

- GPAX : 3.40

WORK EXPERIENCE

INTERNSHIP AT ITOPPLUS CO.,LTD.

- Intern at Digital Content Developer position for 4 month.
- Responsibilities encompass modifying or creating website designs utilizing HTML, CSS, and JavaScript to meet client specifications.

PROJECTS

Thesys

Ecommerce / website

- Developed an eCommerce website using Next.js for the frontend, with a strong emphasis on designing a modern, sleek UI using TailwindCSS and Lucide-react. Focused on creating a clean, user-friendly interface to enhance the user experience. MongoDB was leveraged as the primary database to support product, user, and order management.

Konavillage

Hotel booking/ website

- Developed a hotel booking website platform using React.js for the frontend and Node.js with Express for the backend. Integrated RESTful APIs to handle data management and backend functionality, with MongoDB as the primary database for storing booking and user data. The project supports full-stack features and provides a seamless user experience for managing hotel bookings.

SKILLS

- Frontend : HTML, CSS, JavaScript, React.js, Next.js, TailwindCSS
- Backend: Node.js (Express.js), RESTful API
- Databases: MySQL, MongoDB
- Other: Firebase, Bootstrap 5
- Jwt authentication , Resful API , Redux
- ORM : Prisma
